ERNESTO FLORES MANRIQUE

Location: San Francisco de Dos Ríos, San José
Contact: 7109-1639
E-mail: efabiofm@gmail.com

PROFILE

Full-stack web developer with two and a half years of experience working on web and hybrid applications development for different business areas, both for local and foreign clients. During that time, I've acquired excellent programming practices, knowledge in server configuration for deploying final product and system requirement and project scope management. High english language proficiency, both oral and written.

EXPERIENCE

Ciris Informatic Solutions

Full-Stack Web Developer
September 2015 – To date

Develop and maintain front and back end of web and hybrid applications for local and foreign customers under a Scrum or Kanban methodology, using mostly Angular, Node, MongoDB and Ionic. Configure and maintain Linux servers to deploy to production the applications using continuous integration tools. Analyze software requirements and estimate project duration. Research and implement latest technologies and best programming practices.
